## **TOOLS:**

- [Wire cutters \(1\)](#)

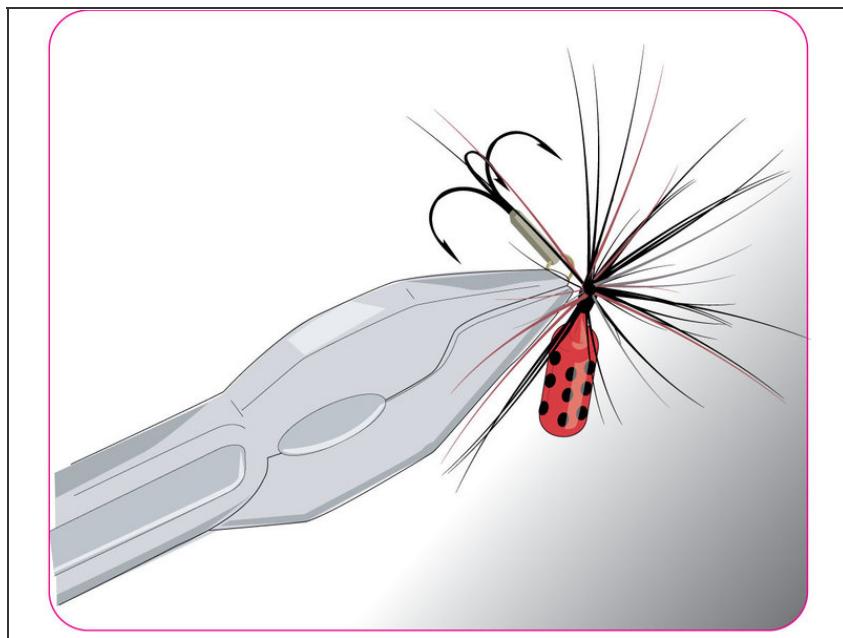

## **PARTS:**

- [Fishing lure \(2\)](#)
- [Earring posts \(1\)](#)  
*[1 pair](#)*

## **SUMMARY**

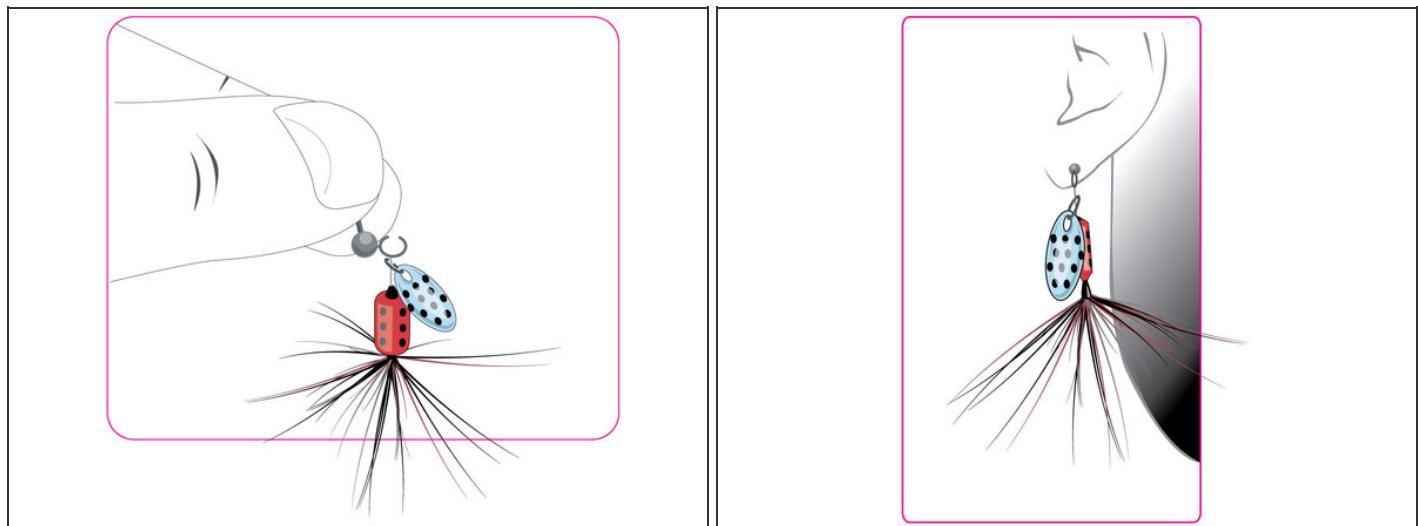

Looking for some punk-rock glam that shows off the creative crafter inside? Fishing lure earrings may be the perfect cure. Lots of inspiration can come from a tackle shop. People like shiny, colorful things, and they hope fish do, too.

### Step 1 — Remove the hook.

- Carefully cut off the hook at its “eye” with the wire cutters. Watch out for those gnarly, three-pronged trouble hooks!
- Dump the hook.

### Step 2 — Assemble.

- Using your needlenose pliers, open the loop on the earring post. Slide the loop of the earring through the eye of the fishing lure, and close the loop.
- Add additional baubles (sinkers, anyone?) to taste.
- Wow. That was quick. Rinse and repeat.
